Dear Society Golfer

August 2007

We have now published our latest packages for 2008 and also the forthcoming festive season's offerings. This extensive range is designed to accommodate all of our clients' key requirements although we are very happy to discuss any additions which you have in mind.

Enjoy Great Golf Whatever The Weather

Last year we were promoting the virtues of our environmentally friendly course with its abundance of conserved water available for irrigation. This year there has definitely been no shortage of water as June and July have been by far the wettest on record. Our intensive management techniques along with our naturally free draining course do mean that we have remained open and in very good condition throughout.

One thing we can say with certainty is that when you book your Summer or Winter season golf day with us at Ombersley you will have booked one of the most reliable courses in the Midlands.

No Minimum Group Size

This year we are making it easier for smaller groups to book. This may well be of interest to those of you who have recently formed newer groups or societies and who want to enjoy all the benefits of a pre booked golf day.

Driving Range

Regularly visiting societies will know that we continue to enhance the facilities which we provide at Ombersley.

The range has been totally refurbished and now has a warmer more open feel along with improved safety features and ball dispensing. The solid bay dividers and concrete floor are now gone and are replaced by colour coded and comfortable anti slip flooring and attractive deep netted dividers. As well as enhancing range safety there is considerable noise reduction and increased privacy which all contribute to more enjoyment.

Various baskets sizes of top quality balls can be purchased and a warm up size basket of 25 balls is now also available which is proving to be a welcome option.

Clubhouse

Much of our work goes on behind the scenes and enables us to enhance all aspects of our overall service provision. We have recently invested a substantial sum in the latest catering technology which will assist in the timely provision of excellent quality food for you during your day with us.

We continue to work hard at improving the finer points of our service to you and have certainly found that some of the more recent ideas, such as providing a variety of guest ales, prove successful.

Special Buggy Hire Offer

Take advantage of our special offer and receive one buggy hire absolutely free of charge for every five buggies that you book with us.

Remember that we do have a large fleet of competitively priced buggies available for hire which all have GPS installed for your added enjoyment. It is well worthwhile experiencing one of these increasingly popular systems if you have not yet tried one out. GPS technology constantly informs players of the exact distance of their ball to the green and other key hazards thus giving additional confidence and consequent shot reduction per round. The system is totally automatic.

Why Choose Ombersley For Your Golf Day

We simply want to give you a great day out which we hope will make you want to return year after year.

In striving to achieve this we do offer many services which are not always available elsewhere such as the refreshment buggy which is on the course daily providing a variety of light refreshments.

We will also be delighted to assist if you have any specific requests such as scorecard marking. Similarly, lower handicap societies may like to request use of medals tees.

As always, the golf shop has a wide range of trophies and mementos on offer and we are happy to quote you for your trophies and prizes.

Finally, we aim to take the stress out of organising a golf day so that you can concentrate on enjoying yourself.

We hope you choose Ombersley for your 2008 group golf day and look forward to welcoming you.

With very best wishes from all at Ombersley Golf Club
